

Kritika Gupta

Research Intern,

Institute of Chinese Studies,

Delhi.

Email: kritikagupta567@gmail.com

Areas Of Interest

Poverty, Gender, Education And Health Differences Across Countries and their impact on economic growth.

Current Research Projects

Comparative Analysis on India and China on Various indicators:

- Broad macro-economy: GDP, growth rates, growth rates of states
- Sectors -- agriculture
- Sectors -- manufacturing
- Sectors -- Services
- External sector -- trade (changes in commodities, trading partners, shares of each, regional blocks), balance of payments, exchange rates, capital account), FDI -- both within these countries and FDI by these countries to the rest of the world.
- Relationship to the external economy -- global financial crisis, Eurozone crisis
- Multilateral international institutions -- IMF, WB, WTO etc
- Labour and employment
- Poverty and inequality: include as many indicators and measures as possible. WB is good source for this.
- Education and health
- Infrastructure
- Role of the state -- public finances, monetary and fiscal policies, transfers, subsidies
- Social Groups -- religion, ethnicity, gender, region
